PRESIDENT’S MESSAGE

“The umbrella foundation provides access to a community where you can share and grow through philanthropy.”

DENIS PITTET
PRESIDENT OF
THE FOUNDATION

An umbrella foundation associated with the Lombard Odier Group and a registered charity, Fondation Philanthropia has been helping its donors implement their philanthropic projects since 2008. We provide support to anyone who wishes to develop a philanthropic project in keeping with their traditions, desires and ambitions. The Foundation offers its donors a legal, financial and philanthropic framework for made-to-measure projects.

In 2025, the Foundation had the opportunity to create four new funds. Throughout our discussions with the founders, we observe that education and training remain top priorities for donors. They constitute the most powerful levers for improving people’s lives, opening pathways to social progress and personal fulfilment. This annual report highlights several initiatives that support the education sector, notably through the provision of scholarships. Thanks to strong partnerships with institutions active in the educational sector, these scholarship programmes – from Switzerland to the Philippines – offer concrete support to deserving and promising students by removing the financial barriers that might otherwise prevent them from continuing their studies.

Thanks to the generosity of one of our donors, we have also had the privilege of supporting the Octopus Foundation, which assists local archaeologists in exploring Lake Neuchâtel. Over the past two years, underwater surveys and excavations have led to the discovery of hundreds of Roman artefacts, lying at the bottom of the lake. This exceptional discovery, the first of its kind in Switzerland, was made possible thanks to this support, demonstrating that scientific research concerns not just medicine, but also the social sciences.

We are also seeing an increasing number of young donors choosing to set a time limit on the use of the capital allocated to their philanthropic projects. To this end, we are setting up sheltered funds for them for a maximum duration of 10, 15 or 20 years, with the aim of maximising the impact of the capital distributed in the areas close to their hearts. This approach to “giving while living” is worth highlighting, and we would like to extend our warmest thanks to the donors involved.

At a time when the world is confronted with mounting challenges, Lamartine’s words remind us of an essential truth: “There is no enthusiasm without wisdom, nor wisdom without generosity.”

“THE BENEFIT
OF OUR STUDY IS THAT
IT HAS MADE US BETTER
AND WISER.”

Secretary General

166 mn
in donations received*

98 mn
in grants awarded*

This year, you can read about examples of scholarship programmes run by the Foundation. Initiated by donors, these programmes always take the form of long-term partnerships with schools or universities. These institutions ensure that recipients are selected based on objective criteria – both financial and merit-based – in a fair and equitable manner. Our team facilitates the formation of these long-term partnerships. This rigour and stability enable us to select the best candidates, ensuring their success and paving the way for a promising professional future. Looking back, we can see the indisputable impact these programmes have had on their beneficiaries.

In 2025, we renewed our commitment to preserving architectural heritage by establishing a new partnership with the Château de Versailles to co-fund its restoration efforts. The unique appeal of this iconic site enables us to support a new project (see pages 10–11), this time located within the park: the Chestnut Grove. In Switzerland, the archaeological discovery at Lake Neuchâtel will remain a milestone, illustrating how donors can play a decisive role in safeguarding local heritage treasures.

Fondation Philanthropia was created in response to the growing need for a simple and efficient way to structure philanthropic initiatives, without requiring donors to establish their own grant-making foundation – a process that is often time-consuming, costly, and complex in terms of legal responsibility.

As an individual donor, a family or a group of friends, weighing up all the options can seem somewhat overwhelming. The role of the Foundation's advisory team is to discuss your aspirations and provide the necessary guidance, before connecting you with the right partners. Drawing on their expertise in supporting donors who wish to make a meaningful contribution to the causes they care about, the advisory team also serves as Lombard Odier's Philanthropy Services team.

BENEATH THE BRANCHES OF THE CHESTNUT TREES AT VERSAILLES

A secluded grove in the gardens of the Château de Versailles, nestled between the Colonnade and the King's Garden, the Chestnut Grove has a complex history shaped by successive transformations that reflect evolving tastes and use of the garden under the Ancien Régime.

Originally known as the Water Gallery and later as the Antiques Gallery, it was once lavishly adorned with stone and water features. Over time, however, these elements gave way to greenery, transforming the grove into a lush oasis with tall trellises enveloping rows of chestnut trees. Restored in this latter configuration in 1989, the grove has since been significantly altered. The new restoration campaign, launched in November 2025, focuses on the pathways, trellises, marble features and plantings – including the double row of chestnut trees, the grove's defining species.

Before the restoration began, the Chestnut Grove was in an advanced state of disrepair, affecting every element of the site—from the ground and plantings to the trellises, ponds, statues and fixtures. The restoration work focuses on the grove's overall landscape composition, including levelling the ground and replacing or pruning vegetation where needed; on the trellises, which will be entirely replaced; and on the masonry and marble features. Once completed, the grove will be returned to its early-18th-century appearance, ready to be admired by the over eight million visitors who come to the Château each year.

Chestnut grove fountain

For nearly a decade (2012–2022), Fondation Philanthropia deployed the financial resources entrusted by its donors in close partnership with the Château de Versailles. This period encompassed several major restoration projects, including the Latona Basin and parterres, the Trianon-sous-Bois wing and the Royal Chapel.

In 2025, a new funding opportunity emerged within the park with the restoration of the Chestnut Grove. For donors inspired by the exceptional history of this site and by the long-standing partnership with Versailles, the Foundation facilitates contact with the Public Establishment of the Château de Versailles and continues to play its unifying role in promoting patronage for this outstanding heritage site.

THE MYSTERIES OF LAKE NEUCHÂTEL

A Roman shipwreck has been discovered in Lake Neuchâtel and is currently the subject of an underwater archaeological excavation, led by the Department of Archaeology of the Canton of Neuchâtel (OARC) in close collaboration with the Octopus Foundation and the Archaeological Department of the Canton of Fribourg (SAEF). The last remaining evidence of the vessel, which sank between AD 20 and 50 and has since disappeared, consists of around a thousand objects lying on the lakebed; these items have been identified, documented and recovered. The rich quality and variety of these items, which remain in excellent condition, make this a truly exceptional discovery, unique in Switzerland and in inland waters north of the Alps.

The cargo was discovered via aerial photography in November 2024, as part of the monitoring of submerged heritage carried out by the OARC. This was followed by exploratory dives and an initial excavation campaign in March 2025, with the aim of assessing the potential for heritage preservation.

Urgent action is needed to protect this discovery. Despite its remarkable state of preservation, it remains extremely fragile and vulnerable to multiple threats, including erosion from the lakebed, damage caused by the anchors of pleasure boats, and, most critically, the risk of looting. As a preventive measure, the most at-risk objects have been systematically removed after thorough documentation.

Fondation Philanthropia has supported the **Octopus Foundation** on several occasions, particularly with marine biology projects in the Mediterranean. This is the first time the Foundation has been involved in an archaeological research project. A registered charity established in Switzerland in 2015, the Octopus Foundation aims to support scientific research in aquatic environments by providing a team of specialist technicians free of charge and by developing new open-source research tools. In addition to underwater archaeological or biological research, the Octopus Foundation team produces its own materials to raise awareness of the various projects among the general public, such as TV documentaries, books or comic books, as well as exhibitions and conferences.

The Octopus Foundation has provided on-site support to archaeologists in the Canton of Neuchâtel since 2018, studying four shipwrecks and two lake-dwelling villages. For this site, excavated between 2025 and 2026, the Octopus Foundation's involvement was made financially possible thanks to Fondation Philanthropia and another patron.

octopusfoundation.org
www.ne.ch/autorites/dsdc/scne/oarc
latenium.ch

View of the archeological site

The cargo mainly consists of several hundred ceramic vessels, miraculously found intact at the bottom of the lake. These include tableware items (dishes, plates, bowls, cups) that were produced locally in the Swiss Plateau region. Olive oil jugs imported from Spain demonstrate long-distance trade during the Roman period. There are also harness and chariot parts, including wheels in perfect condition, the only Roman examples of their kind in Switzerland. Finally, the presence of swords suggests that the shipwreck, which occurred between AD 20 and 50, was that of a civilian merchant vessel under military escort.

Prospects for scientific research

The contents of the cargo are an invaluable source of information, offering promising insights into trade networks, technical expertise, the identification of ceramic workshops, and the marketing of manufactured goods. It will then be essential to share the findings of the research into this major discovery with a broader audience, notably through exhibitions at **Laténium**, Neuchâtel's archaeology park and museum.

“KNOWLEDGE

THAT INCREASES
WHEN IT IS SHARED.”

SOCRATE

THE ADVANTAGES OF OUR UMBRELLA FOUNDATION

THE IMPACT OF EACH GRANT IS MULTIPLIED

Fondation Philanthropia's structure allows private donors to pool their funds with other donors to support projects that would have been inconceivable without being able to share the costs. The impact of each donation is thus multiplied.

Within these structures, donors can create their own personal space – or “sheltered fund” – which operates in a very independent manner, and benefits from the economies of scale produced by the umbrella structure.

Philanthropia provides all the administrative, accounting and legal services required, so donors are free to focus exclusively on their philanthropic causes in full confidence.

Philanthropia can help you achieve your philanthropic ambitions with the added assurance of simplicity, security and tailored solutions that are precisely aligned with your objectives.

YOU CAN CHOOSE BETWEEN TWO OPTIONS

THEMATIC FUNDS

These funds are perfect if you want a swift and straightforward solution. They allow you to operate alongside other donors to support projects and organisations in one of the following five areas:

HUMANITARIAN AND SOCIAL ACTION

MEDICAL AND SCIENTIFIC RESEARCH

THE ADVANTAGES

- Compliance**
 In an increasingly complex legal environment, it is vital to ensure that the right procedures are followed and changes made.
- Choice**
 The profile of the fund is adapted to the organisation's needs (long-term funds or funds with disposable capital, regular donations or bequests, etc.).
- Flexibility**
 To accommodate an existing project or support a new one.
- Network**
 Access to a network of donors and the sector's trading platforms.

EDUCATION AND TRAINING

ART AND CULTURE

ENVIRONMENT AND SUSTAINABLE DEVELOPMENT

Fondation Philanthropia is committed to selecting with you the most relevant projects to maximise the impact of your donation. For each project, we monitor every grant made and report to you on the results achieved.

SHELTERED FUNDS

These funds are the right solution if you have already identified the cause or project you wish to support. This option allows you to create your own fund, which then operates as a quasi-independent entity within our umbrella structure. If you wish, you can involve your family and friends by forming a consultative committee to submit grant recommendations to the Board of Fondation Philanthropia. You can also work directly with our philanthropy advisers, who will help you define a grant strategy and select those projects that best suit you.

This option is also suited to existing foundations wishing to reduce their administrative overheads, while retaining a board that plays an active role in the grant-making process.

Forty-seven donors have already created their own personal fund within Fondation Philanthropia. Each of these funds is active in different areas, according to the sensitivities and preferences of each founding donor.

IN FIGURES

Donors have created their own fund within Fondation Philanthropia

BESPOKE ASSET MANAGEMENT

Management of the Foundation’s capital providing all the necessary security guarantees for the fulfilment of our donors’ commitments.

Fondation Philanthropia makes substantial grants every year. Given the Foundation’s distribution policy, the low level of returns currently available and the volatility of financial markets in recent years, the Board of Trustees has decided to adopt a management policy based on a financial planning model aimed at providing long-term protection of assets. This policy divides assets into three distinct sub-funds on the basis of a forecast distribution time horizon. Each sub-fund has a specific investment strategy designed to achieve set targets for return on investment and risk management.

RESPONSIBLE INVESTMENT CHARTER

In order to align the investment strategy more closely with the Foundation’s objectives and missions, the Board adopted a responsible investment charter aimed at generating financial returns while having a positive impact on society.

The charter is based in particular on the Principles for Responsible Investment (PRI) initiative launched by investors in partnership with the United Nations Environment Programme Finance Initiative and the United Nations Global Compact. The management approach is based on negative selection criteria (exclusion of certain unethical sectors of activity), positive selection criteria (Environment, Social and Governance [ESG] ratings and controversy scores), and investments with a social and environmental impact.

COSTS

Philanthropia offers a competitive and advantageous cost structure. All administrative, accounting, legal and philanthropic costs, excluding asset management, are set at:

CAPITAL	FIXED RATE	+	PERCENTAGE OF AVERAGE FUND ASSETS OVER THE YEAR
CHF <1 million	CHF 5,000.-		/
up to CHF 5 million			+ 0.50%
up to CHF 10 million	CHF 3,500.-		+ 0.35%
up to CHF 25 million			+ 0.20%
over CHF 25 million		custom rate	

THE BOARD OF TRUSTEES

Our Board of Trustees guarantees that Fondation Philanthropia is correctly managed at all times. It takes particular care to ensure that its missions are fulfilled in compliance with all the provisions agreed with each of our donors.

Its members have complementary profiles and are all personally committed to the philanthropy sector. The Board meets each quarter to discuss current issues, analyse projects and approve decisions taken by the Foundation, ensuring that they are consistent with the intentions and wishes of our donors.

LEVELLING THE PLAYING FIELD: THE CASE OF THE EHL HOSPITALITY BUSINESS SCHOOL

THE CHALLENGE:

Access to high-quality education remains a challenge for many talented individuals, regardless of their ambition or potential. At internationally renowned institutions such as EHL, where students come from all over the world, the costs associated with tuition, accommodation and living expenses can be a major barrier.

At the same time, the hospitality and services industry requires a diverse range of profiles, capable of understanding and operating in varied cultural, social and economic environments. Ensuring this access therefore is not just a matter of equality, but also of the sector's ability to renew itself and train its future leaders.

THE IDEA:

Scholarships at EHL have been designed to promote access and make a difference. They enable talented students, selected on the basis of their academic potential and commitment, to join the school regardless of their financial circumstances.

These scholarships depend on the commitment of private donors, often alumni or partners, who wish to make a tangible contribution to the education of the next generation.

In addition to financial support, these scholarships are part of a broader vision: to foster diversity in students' backgrounds, enrich their collective experience and strengthen EHL's role as an institution dedicated to training responsible leaders, with a firm grasp of the realities of the world and capable of providing concrete solutions.

THE RESULT:

Every scholarship awarded has an immediate and lasting impact. It enables the student to access a first-class education, while focusing fully on their studies and personal development. These programmes contribute to greater diversity in backgrounds and perspectives, which is essential in promoting meaningful dialogue and enhancing the quality of learning.

In the longer run, these students go on to pursue international careers in hospitality, entrepreneurship or other service sectors. The scholarships thus become a vehicle for social mobility, as well as a direct investment in talent that will help to advance the standards and practices within their chosen industry.

EHL HOSPITALITY BUSINESS SCHOOL

As a non-profit foundation, EHL reinvests all its income in institutional development, with a portion earmarked for scholarships. The aim of these scholarships is to support high-potential students whose financial circumstances would otherwise prevent them from attending the school. Today, almost 50% of the students who have applied receive support based on means-tested criteria. Funded by the generosity of private donors, these scholarships help to enhance the diversity of student profiles within each class. In 2025, EHL launched (Em)Power On, an initiative aimed at establishing a CHF 50 million endowment fund by 2030 to provide long-term funding for scholarships.

ehl.edu

**MARINA CELLITTI, PHILANTHROPY
MANAGER, EHL**

What role do scholarships play for students and your organisation's reputation?

"Scholarships play a central role. They provide students access to an education of the highest standard and enable them to realise their full potential, regardless of their financial circumstances. In this way, they contribute to promoting equal opportunities, a value at the heart of any educational facility's mission. For EHL, they are essential in attracting diverse profiles and enriching the academic and social experience. A diverse and inclusive school is a richer place – for its students, its community and, ultimately, society.

This diversity is essential for training responsible and committed leaders, capable of thriving in complex environments and providing solutions to the challenges facing the hospitality sector, the service industry and, more generally, the world of business."

**MATTEO BERTOLI, UNDERGRADUATE
STUDENT AT EHL**

What does this scholarship enable you to achieve during your studies and what impact does it have?

"This scholarship has enabled me to join EHL under conditions I could not otherwise have envisaged. It gives me the opportunity to fully focus on my studies, whilst getting involved in school life and in projects close to my heart, particularly in entrepreneurship. With the school's support, I have been able to develop a project idea and structure it. Today, the impact of this scholarship goes beyond the financial: it has opened up an international environment for me, a strong network, and given me the confidence I need to build an ambitious future."

ENABLING YOUNG FILIPINOS TO ACCESS HIGHER EDUCATION

THE CHALLENGE:

In the Philippines, many young people from very poor families face major obstacles to continuing their education. Although school is free, indirect costs (such as uniforms, supplies, transportation, and food) remain high and exclude the most vulnerable. Overcrowded classrooms and uneven standards further undermine educational prospects. Added to this are difficult living conditions: inadequate housing, financial pressure, and exposure to trafficking and addiction. In rural areas, isolation exacerbates these inequalities in access. As a result, motivated and capable students drop out of school to support their families and take on arduous and precarious work.

THE IDEA:

For over 30 years, Enfants du Mékong has been supporting the most disadvantaged young people in the Philippines, working closely with local partners. The centre in Butuan enables 38 students from extremely vulnerable backgrounds to continue their studies in a stable and supportive environment. The centre provides for their basic needs (including accommodation, educational support, and study facilities) and thus removes the main barriers to their education. Beyond material support, it offers an environment conducive to personal development, fostering community life, responsibility and mutual support. Students are also supported in their transition into the workforce by taking part in workshops to prepare them to enter the Philippine job market. At the Butuan centre, young people develop a solid foundation and can look to the future with confidence.

THE RESULT:

The results of the Butuan centre are very significant.

This year, the centre welcomed a new group of eight first-year students, who will replace those graduating.

100% of graduating students find employment within six months of completing their studies. From their very first pay cheque, their earnings are two to five times higher than those of their parents (around USD 100 per month), generally reaching between USD 200 and USD 500. These career paths enable them to lift themselves out of poverty in the long term and have a direct impact on their families.

Lastly, over the years, the centre's alumni network has become well-established, with former students gladly returning to support new groups of students in their academic journey and transition into the workforce.

GUILLAUME MARIAU, DEPUTY DIRECTOR AT ENFANTS DU MÉKONG

Besides providing a job and a salary, what are the most tangible impacts of the programme on the lives of the students and their families?

“What strikes me most is the transformation in these young people. Beyond the diploma itself, they gain self-confidence and learn how to express themselves, make choices and believe in their future. They often become role models for their families; sometimes, they’re the first ones to open up new horizons. It is also very important to us that they contribute to the common good. Every month, the students get involved in very poor communities in Butuan to provide tutoring to younger children, support the elderly and organise fun activities for the children. It teaches them the value of selflessness!”

What are the most memorable stories among the students you have supported in the Philippines?

“I’m reminded of Janena, who is from the island of Mindanao. As a child, she survived floods but lost her father because he couldn’t access medical care. This tragedy sparked a calling within her: to become a doctor and help others. Thanks to our support, she was able to continue her studies at the centre in Butuan. She often tells us that, beyond the financial aid, it was the confidence we gave her that made all the difference. Today, she is steadily moving forward to fulfil her dream.”

TRAINING A GENERATION OF MEDICAL STUDENTS

The Hussenstein Fund celebrates its 16th birthday in 2026. Created by a now-deceased donor, it provides scholarships to students at the University of Geneva's Faculty of Medicine.

Inspired by a meeting with a doctor, this scholarship aims to remove the financial barriers that some students face when embarking on this long and demanding course of study. The scholarship is also about solidarity: while students must demonstrate academic merit, the scholarship also encourages them to give some of their time by mentoring or providing support to other medical students on a voluntary basis.

The scholarship enables students to forgo taking up work alongside their studies and encourages them to provide tutoring to their peers or to get involved in student life.

Over the course of 16 years, and as it nears its end, the Fund has awarded more than CHF 1.4 million to 36 students during their studies. This spend-down fund has distributed between five and eight scholarships per year and is expected to be wound up within approximately two years.

**MADAME LARA AZEVEDO
(FORMER BENEFICIARY)**

"When I began my medical studies, receiving a full scholarship was a real turning point in my life. Not only was I able to focus fully on my studies without the burden of financial constraints, but I was also able to maintain a good work-life balance, which made all the difference. Looking back, I would say that this scholarship helped shape a professional who is able to support, care for and pass on her knowledge. Its impact extends far beyond my years of study. To those who might benefit from such support: it can truly change the course of your life. And to those who make these scholarships possible: your commitment has a lasting impact, far beyond what you can imagine."

**MONSIEUR EDOUARD GENTAZ,
VICE-RECTOR OF THE
UNIVERSITY OF GENEVA (UNIGE)**

"Private funding plays a crucial role in complementing public schemes, by improving access to education for students in challenging circumstances. Around 50% of students work alongside their studies, and nearly half of them struggle to make ends meet when it comes to housing and food. Thanks to grants co-funded by public and private funds, these dedicated students are able to complete their studies and enter the workforce. Philanthropy thus constitutes a strategic investment in human capital, with lasting benefits for society. It also illustrates the value of public-private partnerships in serving the public interest and the future of the community."

EDUCATION AND TRAINING

SWITZERLAND BUILDING BRIDGES FOUNDATION

General support for the annual conference in Geneva aimed at bringing together stakeholders from various sectors to find sustainable finance solutions and promote investments that have a positive impact on the environment and society.

DEMOCRATIC REPUBLIC OF THE CONGO GEORGES MALAIKA FOUNDATION

Project providing education for girls in the Kalubeka region, Katanga, Democratic Republic of Congo. The organisation also provides a community centre so that adults can benefit from certain types of training and come together in a positive environment.

SWITZERLAND PRO-INFIRMIS JURA-NEUCHÂTEL

Support for a continuing education programme for people with disabilities.

* Non-exhaustive list

PORTUGAL
ASSOCIAÇÃO RED HERRINGS

Support for socio-educational activities targeting young people from disadvantaged backgrounds in Lisbon: raising awareness of safety at sea and introducing them to surfing.

CAMBODIA
AGIR POUR LE CAMBODGE (APLC) – SALA BAI

Scholarship funding for hotel management school students in Siem Riep

SWITZERLAND
ASSOCIATION TOUTES À L'ÉCOLE

General support for the education and empowerment of girls from disadvantaged backgrounds in emerging countries, notably the Happy Chandara school.

UNITED KINGDOM
BROCKWOOD PARK SCHOOL

Support for the scholarship programme at the school, a member of the Krishnamurti school network.

SWITZERLAND
MARC BIRKIGT SCHOLARSHIP – UNIVERSITY OF APPLIED SCIENCES AND ARTS, GENEVA (HEPIA)

Distribution of a scholarship to an engineering student at the University of Applied Sciences and Arts, Geneva (HEPIA).

SWITZERLAND
FONDATION EGON NAEF

The E. Naef Foundation for in-vitro research supports scientists who develop efficient substitutes to animal experiment. A two-year partnership with the **Carlo Fund** of Philanthropia provides a prize for researchers with demonstrated breakthrough in this field.

GERMANY
**EUROPEAN COALITION
TO END ANIMAL
EXPERIMENTS – ECEAE**

Three-year funding (2025-2027) for European advocacy activities aimed at reducing animal testing in pharmaceutical and industrial processes.

SWITZERLAND
PARKINSON SUISSE

Support provided by the **Gustaaf Hamburger Fund** for the publication of the quarterly magazine and the association's solidarity fund.

Fondation
privée des

FRANCE
GUSTAVE ROUSSY

Support for the oncology fellowship programme and the Interception programme (2022-2024), an interactive digital platform to support an innovative cancer prevention model.

SWITZERLAND
**PRIVATE FOUNDATION OF
THE GENEVA UNIVERSITY
HOSPITALS**

Support for a research project investigating the protective and anti-inflammatory role of hepatocyte growth factor present on the surface of certain white blood cells involved in multiple sclerosis.

SWITZERLAND
FONDATION OTIUM

Support for the installation of a care centre in Geneva, which aims to provide practical and psychological support to patients living with cancer and their families, while ensuring their physical well-being in a warm and welcoming environment.

INTERNATIONAL
**EUROPEAN ORGANISATION
FOR RARE DISEASES
(EURORDIS)**

Support for the European Organisation for Rare Diseases (EURORDIS) to strengthen its international advocacy work (in partnership with Fondation de Luxembourg).

SWITZERLAND
**RESEAU ROMAND
D'ONCOLOGIE (CHUV, HUG)**

Renewed support provided to the care network in French-speaking Switzerland through the integration of artificial intelligence for precision oncology.

SWITZERLAND
**COORDINATION ROMANDE
DES ASSOCIATIONS
D'ACTION POUR LA SANTÉ
PSYCHIQUE (CORAASP)**

Three-year support (2025-2027) via the **Nikki Fa Fund** for the programme promoting the integration of peer mental health practitioners (PPSM) into the Swiss social and healthcare system to provide better support for people affected by mental health conditions.

HUMANITARIAN AND SOCIAL ACTION

SWITZERLAND
CIVITAS MAXIMA

General support for the NGO that facilitates the documentation of international crimes and seeks reparations on behalf of victims who are unable to assert their rights.

SWITZERLAND
ASSOCIATION PROVIDE THE SLIDE

Support provided via the **Smile Wave Fund** for an initiative to collect second-hand surfboards for use by clubs in Western Africa.

SWITZERLAND
SWISS FOUNDATION IN SUPPORT OF HUMAN RIGHTS WATCH

Unrestricted support for the human rights advocacy organisation.

THAILAND
LABOUR PROTECTION
NETWORK

Unrestricted support from the **Smile Wave Fund** to an NGO that defends the rights of sea workers and fights against the enslavement of fishermen by industrial fleets in South-East Asia.

VIETNAM
BLUE DRAGON CHILDREN'S
FOUNDATION

Pilot programme providing psycho-social care for abused children.

ITALY
ASSOCIAZIONE VOLONTARI
ROCCAMALATINA DI GUIGLIA

Provision of a light medical vehicle for a local relief organisation by the **Antonella and Bernard Droux Fund**.

UNITED KINGDOM
INTERNATIONAL RESCUE
COMMITTEE

Support for the programme assisting Burmese refugees in Thailand.

SWITZERLAND
SOS MEDITERRANEE

General support for the organisation, which rescues migrants stranded at sea.

INTERNATIONAL
BLOOM ASSOCIATION

Joint support via the **Smile Wave Fund** and **The Wishful Squid** to strengthen the organisation's team active at the European and international levels in campaigning against illegal fishing and overfishing.

UNITED KINGDOM
GALAPAGOS CONSERVATION TRUST

General support for the organisation working to protect endemic species in the Galapagos Islands, Ecuador.

SWITZERLAND
ASSOCIATION DE SAUVEGARDE DU LÉMAN

General support to protect the ecological balance of Lake Geneva.

SWITZERLAND

- **FONDATION FRANZ WEBER**
- **PRO NATURA SUISSE**
- **PROTECTION SUISSE DES ANIMAUX**
- **WWF SUISSE**

These organisations have received non-earmarked support from the **Klara Jucker-Kurt Fund**.

INTERNATIONAL

WWF INTERNATIONAL

Support in establishing the International Rangers Coalition, a network of national park rangers, over two years (2023-2024). Capacity-building support for rangers in Nam Pou National Park, Laos.

SWITZERLAND

SUMMIT FOUNDATION

Three-year support (2025-2027) for the Summit Science research programme focused on monitoring glacial lakes.

SWITZERLAND

MOUNTAIN WILDERNESS

Three-year general support (2025-2027) for the preservation of wild mountain areas in Switzerland. The organisation encourages the public to explore these areas in a responsible, respectful and sensible manner, without leaving any trace.

ITALY

**SEA SHEPHERD
ITALIA ONLUS**

Support via the **Smile Wave Fund** to promote advocacy work and establish a marine protected area around the Aeolian Islands.

SWITZERLAND
**FONDAZIONE MUSEO D'ARTE
DELLA SVIZZERA ITALIANA
(MASI)**

Acquisition of three works by Louisa Gagliardi (1989), one of the most interesting artists on the contemporary Swiss scene. In her works, where she combines traditional painting techniques with digital technology, she explores themes such as identity, social transformation and the relationship between individuals and their environment.

SWITZERLAND
**CRANS-MONTANA
CLASSICS**

Support for the classical music festival.

SWITZERLAND
SOLOTHURN FILM FESTIVAL

Restoration and promotion of the film "Downtown 81" and the digitisation of "Face Addict" as part of the "Histoires" programme at the 61st Solothurn Film Festival taking place in 2026.

SWITZERLAND
**ASSOCIATION DES AMIS
DU VERBIER FESTIVAL**

General support for the music festival and musicians.

A WORD OF THANKS

Our aim in this report was to highlight the work done directly in the field by our partners. We would like to take this opportunity to thank them sincerely for the quality of their work and their projects.

Our donors are thus able to fully quantify the impact of their generosity, which has contributed to changing the fate of humankind all over the world.

We cannot consider unsolicited funding requests from associations. Thank you for your understanding.

Since the mission of Fondation Philanthropia is to serve the philanthropic ambitions of its donors, we adopt a purely proactive approach to identify projects that meet their personal interest areas.
